

JOHN STUBBS DAY

We had a total of 187 students ranging from grade 6 to grade 8 arrive at our Greens to experience Lawn Bowling. The students were well behaved and very enthusiastic. It didn't take them long to understand what a wrong bias was and sadly like the rest of us, understanding and not doing are two different things! With one bowl each and in groups of 5 they played a game of Cutthroat. It was quick, fun and the competition level climbed higher with each success. The members who volunteered to help had as much fun as the kids, their enthusiasm was infectious.
