### Cutthroat Conditions of Play

- Three players per rink (possible 4 if uneven numbers)
- One player to be designated:
  - o Scorekeeper
  - o Raker
  - o Shot decider (Towel person) & Measurer (all players must agree)
- On First end anyone can throw Jack, (we usually do alphabetical for first end only)
- The Jack **does not** have to be on centreline but must be in bounds. (do not centre the Jack, it is part of the game & is what makes it more interesting)
- Fourteen ends to be played, with four bowls/player (*if four players only use 3 bowls*)
- 10 points scored per end, 140 points total
  - o 1<sup>st</sup> shot - 4 points
  - o 2<sup>nd</sup> shot - 3 points
  - o 3<sup>rd</sup> shot - 2 points
  - o 4<sup>th</sup> shot - 1 point
  - o **If four players your final score will be increased by 25%**
- Use scoring towel to facilitate recording of scores
- Player with shot closest to the Jack, goes first on the next end, places mat and throws the Jack
- Player with next closest shot goes second
- Burnt Jack (*out of bounds*) to be placed on two metre mark
- Jack in ditch (*but in bounds*) **stays in ditch**, no Jack markers required
- **Touchers are not part of this game, any bowl in the ditch is a dead bowl** (*discourages runners*)
- Score card totals must add up to 10 points per end and 140 total, do not accumulate as you go, check balance after 7 ends as per scorecard
- **No head visitations allowed. This is a fun game**

Good Bowling, be ruthless but have fun!
